

Low Pressure Fluid Handling

■ Pneumatic Fluid Power

■ Control Safety

■ Leak test

■ Low Fluid Handling

■ Ergonomic Solutions

By focusing in on fluid connections for tubing we have provided solutions for safe and convenient fluid handling for a number of industries including food and beverage, medical, bio-medical, chemical and ink manufacturers as well as a broad range of industrial applications. Customers can use our services of sub assembly as an economical way of keeping parts readily available for their manufacturing or as a source of kitting parts for service applications.

Quick Disconnect Couplings

- Standard industrial interchange quick disconnects
- Safety quick disconnects (vent and release) for air tools
- General purpose plastic quick disconnects from 1/8" tubing to 3/4" tubing in a range of molded materials featuring single shut off, dual shut off and non-spill designs
- General purpose metallic quick disconnects from 1/8" tubing to 3/4" tubing
- Liquid dispensing couplings for "bag in box" applications
- Chemical handling couplings, high purity process couplings
- Multiple tube couplings
- "Smart" couplings with RFID recognition
- Custom designed couplings

Tubing

- Flexible tubing in nylon, polyurethane, polyethylene, polyvinylchloride, fluoropolymer, kynar, PVDF and others in size ranges up to 3/4" and a variety of colors
- Multi bore tubing, coiled tubing, braided hose
- Accessories including cable clamps, hose clamps, tube clips, spiral wrap, etc...

Fittings

- Barbed fittings in molded materials — nylon, polypropylene, kynar, polycarbonate
- Luer fittings
- Push to connect fittings, nylon, brass and stainless steel
- Compression fittings
- Accessories — check valves, shutoff valves, manifolds

Sub-Assembly

- Custom assemblies involving tubing, couplings, fittings, packaging, kitting, etc...
